Mr. Arthur Dooley
Central Intelligence Agency

DECLASSIFIED
E.O. 11652, Sec 5(E)(1)
By MMG, NARS Date 7/31/75

Mr. Dooley:

We have been reviewing the records of the Warren Commission concerning which no decision has previously been made as to whether they should be made available to the public for research or withheld under the guidelines applicable to the records of the Commission. Enclosed are copies of these guidelines and of a letter of the Department of Justice concerning the obligation of the National Archives to review the records of the Commission that have not been reviewed. In order to complete the review, we need the opinion of your Agency as to whether certain records of the Commission that relate to the CIA should be withheld or made available for research.

We have prepared two lists, two copies of each of which accompany this note. List No. 1 consists of internal memoranda and other records of the Commission of which copies are enclosed. List No. 2 consists of correspondence between the Commission and the CIA, as well as a few other records, which should be available in the files of the CIA relating to the Commission's investigation. We shall appreciate it if you will mark one of the copies of the two lists in the column on the right side of the page with the word "Release" if in your opinion the document can be released,

of the number of the guideline under which it should be withheld and return the marked copy to us.

Some of the documents on these lists also relate to or were originated by other agencies than the CIA, particularly the State Department and the Federal Bureau of Investigation. If the CIA has no objection to the release of these items, we would, of course, obtain a clearance also from the other agencies concerned when this is necessary.
